Alumni Mentor: Richard Joy , (2013-2017 batch,CSE)

**Alumni Profile: Co-founder @ufarms.io | Co-founder @teqardlabs | IOT
Integration Architect**

Mentees: Semester 5 students (2020-2024 batch CSE A,B)

Visit day: 8/9/2022

An orientation session was conducted to introduce interns to the mentoring program and provide them with an overview of expectations, goals, and the program's structure. During the orientation, interns were also given guidance on establishing effective communication channels with their mentors and setting up regular meetings. These meetings provided an opportunity for interns to discuss their progress, ask questions, seek advice, and receive feedback from their mentors. Meetings were held in-person or through virtual platforms, depending on the availability and preferences of the participants. At the beginning interns were encouraged to set personal and professional goals with the guidance of their mentors. Alumni Mentor played a vital role in helping interns define achievable goals and tracking their progress throughout the internship period. Feedback and suggestions were provided by mentors to help mentees stay on track and make necessary adjustments to their goals. Mentors provided guidance and resources to interns to enhance their skill sets and develop competencies relevant to their chosen field. They shared their knowledge, experiences,

and best practices to help interns gain practical insights and improve their professional capabilities.

Interns reported a high level of satisfaction with the mentoring program, citing it as a valuable resource for their professional development. Mentees expressed gratitude for the guidance and support received from their mentors, emphasizing the positive impact on their learning experience. The mentoring program contributed to increased confidence and competence among interns, enabling them to take on more challenging tasks and responsibilities. Interns developed a better understanding of their career paths and acquired practical skills that will benefit them in their future endeavors. Several interns expressed a desire to maintain a long-term relationship with their mentors beyond the internship period.

The internship mentoring program by Richard Joy proved to be highly effective in providing interns with valuable guidance, support, and learning opportunities. Through the dedication and expertise of mentors, interns gained practical skills, developed professional networks, and grew both personally and professionally. The program fostered a positive and collaborative learning environment, contributing to the success and satisfaction of the interns. The insights and feedback collected from this program will be used to further improve and refine future iterations of the internship mentoring initiative.

Alumni Mentor: Akanksha S, 2017-2021 batch CSE

Mentees: 58 CSE(A,B), 2019-2023 BATCH

Alumni Profile: Software Engineer at H&R Block

Day: 16 June 2023

Time: 8:00 PM

Venue: Gmeet meet.google.com/fnyf-yvnm-yvno

Report:

Akanksha S, a Software Engineer at H&R Block with Microsoft certifications, led an informative and engaging orientation session for summer interns. Drawing from her extensive experience and expertise, Akanksha provided interns with a comprehensive overview of the company culture, values, and expectations. She emphasized the importance of communication, collaboration, and professionalism in the workplace, setting a positive tone for the internship experience. Akanksha also shared insights into the technical aspects of the internship, highlighting key projects, tools, and technologies interns would be working with. Her approachable demeanor and willingness to answer questions fostered a supportive and inclusive environment, ensuring interns felt prepared and motivated for the challenges ahead. Overall, Akanksha's orientation session laid a solid foundation for a successful and enriching summer internship experience at H&R Block.
